SYDNEY OPERA HOUSE AND FRONTIER TOURING PRESENT
CHET FAKER – BUILT ON LIVE – 2nd SHOW ANNOUNCED

7 NOVEMBER 2015
SYDNEY OPERA HOUSE FORECOURT

**** *'His show is a journey'*
SYDNEY MORNING HERALD

Due to overwhelming demand, five-time ARIA Award winner **Chet Faker** has extended his upcoming **Built On Live** tour to include an additional Sydney Opera House Forecourt performance on Saturday 7 November, alongside the already announced show on Friday 6 November. These spring harbourside shows will be Chet Faker's final in support of his critically acclaimed debut album **Built On Glass**, with unexpected surprises along the way as he plays songs never before performed live alongside an expanded band with special guests still to be announced.

Lauded as a leading exponent of the 'new Australian sound' next to frequent collaborator and Future Classic label-mate **Flume**, his earthy take on R 'n' B and down-tempo beats has translated to the stage with vitality – *"Faker commanded the audience throughout the set. The atmosphere was charged, the air was thick, and singing out... he enveloped us."* (The Guardian.) It's clear that the adulation of the songwriter-producer far extends home soil – Chet's live show has made such an impression on international audiences that he sold over 23,000 tickets on his 2014 headline tour across Europe and the UK.

These exclusive outdoor performances on the Sydney Opera House Forecourt are some of Chet Faker's largest headline shows yet, and will mark his final appearances for the year. Expect Faker to lead audiences on a sonic journey that will weave through the buttery-smooth soul and minimal electronic beats that created the foundations for 2014's **Built On Glass**.

This performance is part of **Music at the House**; the contemporary music program presented by Sydney Opera House that includes **Death Cab For Cutie** and **Ryan Adams** and its annual centerpiece festival **Vivid LIVE**, featuring performances by **Morrissey**, **Sufjan Stevens**, **Bill Callahan**, **TV on the Radio** and more.
