

Let's go on a musical adventure!

Music is played all across the globe, from Europe to Africa, Asia to the Americas, and also in your home in Australia.

While you watch this very special *Kids Music Café* performance, we'd love you to join us on a trip around the world by hopping on a little plane we like to call... your imagination!

Stop 1: FRANCE

The *Can-can* is a song that comes from France. It even has its own dance that comes along with it which usually involves a group of women wearing big, beautiful dresses. They often dance in a line, while doing high kicks in the air.

ACTIVITY: Try holding hands with someone in your household and seeing if you can do 10 kicks in a row at the same time. If your answer is yes, you can dance along to the *Can-can*!

Stop 2: NORTH AMERICA

Ain't Misbehavin is a jazzy love song, written all the way back in the early 1920s by African American performers Andy Razaf, Fats Waller and Harry Brooks. That means it's almost 100 years old! Many jazz musicians have sung different versions of this ever since it was first created.

ACTIVITY: *Ain't Misbehavin* is all about being on your best behaviour. During this performance, maybe you could think about doing something nice for someone. Perhaps you could pick a pretty flower to gift someone, say a really nice thing about them or give a big squeeze-y hug!

Stop 3: CHINA

Mo Li Hua or *Jasmine Flower* is a traditional Chinese song that was written a long, long time ago. The song is slow and steady and it might make you feel like swaying along to the music.

Activity: Imagine yourself walking through a field of beautiful, white, jasmine flowers. What do they look like? Maybe you could draw it! What do they smell like? Can you describe it? How do they make you feel?

Stop 4: ARGENTINA

Libertad is an Argentinian style of song that matches up with a type of dance called a tango! A tango is a ballroom style of dancing where two people perform together. They hold their hands and body up and try to keep really straight and upright while they spin each other around. The music is almost always accompanied by clapping.

Activity: Can you clap along to the rhythm of the tango?

Stop 5: AUSTRALIA

Now that we've travelled all around the world, we've landed back at home in Australia. Can you try singing along if you know the words of *Waltzing Matilda* and *I Still Call Australia Home*?

Activity: Take a moment to think about all the wonderful things that make Australia unique.
